

Berlin, August 2017

SUPERBOOTH18 will return to FEZ Berlin in 2018: 03. - 05. May 2018

SUPERBOOTH18 is the first and the largest European trade fair for electronic musical instruments, giving you the opportunity to experience the latest innovations and rare instruments. At SUPERBOOTH18 the visitors get the chance to meet a large number of exhibitors from all over the world in an incomparable atmosphere. In addition to the exhibition stands, there will be around 30 daily concerts and live performances, workshops and talks taking place again.

Due to the strong demand for this years exhibition space it was not possible to fit all interested exhibitors to the floor plan. For next years edition there will be an extra area for those manufacturers who could not take part in 2017 and for new candidates. With this extra room it is possible to expand the range of product categories shown at SUPERBOOTH18 for an even more complete experience. Because of the great success in 2017 the organizers have decided to return to FEZ Berlin in 2018 and develop the event in the same venue. The unique design of the FEZ building, the outside-area, the exhibitor areas, studios, workshop rooms and food court provide an excellent basis for SUPERBOOTH18 and they are spread barrier-free over three floors.

The very well received show program of this years SUPERBOOTH17 has been recorded and edited in the past weeks. Selected concerts and performances will be released online within the next months. This is a nice opportunity for everyone who hasn't been able to see the show program of SUPERBOOTH17 to get an impression of the atmosphere of this incomparable event.

SchneidersLaden presents: SUPERBOOTH18
